

January 2026, Curriculum Vitae

Contact Information

Email: hafsteinne@hi.is

Phone: (+354) 844-2806

Date of birth: 14/06/1988

Nationality: Icelandic

Hafsteinn Einarsson

Associate Professor in Computer Science, University of Iceland

Research Scientist, deCODE

ORCID: 0000-0001-5072-3678

EDUCATION

- **Ph.D. in Computer Science**, ETH Zurich (2017)
- **M.Sc. in Computer Science**, ETH Zurich (2013)
- **B.Sc. in Mathematics**, University of Iceland (2011)

EMPLOYMENT

- **Research Scientist**, deCODE (2021-present)
- **Associate Professor in Computer Science**, University of Iceland (2020-present)
- **Co-founder**, Prescriby (2019-2023), KatlaCode (2024-present)
- **Data Scientist**, Íslandsbanki (2018-2020)
- **Postdoc**, ETH Zurich, Institute of Neuroinformatics (2017-2018)

SELECTED PUBLICATIONS

Sigurðardóttir, A. R., Sverrisson, Þ., Jónsdóttir, A., Guðjónsdóttir, M., Elvarsson, B. Þ., & Einarsson, H. (2023). *Otolith age determination with a simple computer vision based few-shot learning method*. *Ecological Informatics*, 76, 102046.

Sigurðardóttir, A. R., Sveinsdóttir, H. I., Schultz, N., Einarsson, H., & Guðjónsdóttir, M. (2024). *Sequence Segmentation of Nematodes in Atlantic Cod with Multispectral Imaging Data*. *Foods*, 13(18), 2952.

Hauksson, H., Einarsson, H. (2024). Applications of BERT Models Towards Automation of Clinical Coding in Icelandic. *Findings of the Association for Computational Linguistics: NAACL 2024*, 1956-1967.

Davíðsson, H. B., Rees, T., Ólafsdóttir, M. R., & Einarsson, H. (2023). Efficient development of gait classification models for five-gaited horses based on mobile phone sensors. *Animals*, 13(1), 183.

Complete publication list available on Google Scholar (h-index = 10 as of January 2026)

MAJOR AWARDS AND GRANTS

Microsoft Lingua (2026): Grant for developing LLM red-teaming datasets for Icelandic.

Science Award – University of Iceland (2024): Best overall science work and health science category for ICD-10 code classification using Icelandic BERT models

TrustLLM (2023): EU-funded project on LLM development for Germanic languages

Sproti and Vöxtur grants (2020-2021): 90M ISK total from Icelandic Centre for Research (Rannis) for digital product development at Prescriby

Summer Undergraduate Research Fellowship (2010): California Institute of Technology, worked on community seismic network project

STUDENT SUPERVISION

Current PhD Students:

- Steinunn Rut Friðriksdóttir: Mitigating prejudice in language models (main supervisor)
- Annika Simonsen: TrustLLM - aligning language models for Germanic languages (main supervisor)
- Joao Rodrigo Da Silva Martins: Starting a PhD project with the Marine and Freshwater Institute in Iceland with me as his main supervisor
- Ph.D. committee member for Pétur Helgi Einarsson, Andrea Rakel Sigurðardóttir, Sindri Emmanúel Antonsson, Þór Sverrisson, Isidora Glisic, Bjarki Ármannsson, Amir Hamedpour

Recent Master's Thesis Supervision (currently supervising three students):

- Margrét Snorraddóttir: Sköpunargáfa og ADHD (2025)
- Steinar Bragi Sigurðarson: Gervigreindarknúin bókameðmæli fyrir börn (2025)
- Joao Rodrigo Da Silva Martins: Fish Species Classification in Controlled Underwater Environments Using Contrastive Language-Image Models (2025)
- Alexander Guðmundsson: Evaluating Speech Technology Integration in Children's Reading Education (2025)
- Haraldur Orri Hauksson: ICD-10 classification for Icelandic (2024)
- Annika Simonsen: Improving Machine Translation for Faroese using ChatGPT-Generated Parallel Data (2023)
- Atli Snær Ásmundsson: Analyzing Social Behavior in Icelandic Blogging Communities. Sentiment Analysis and Related Tasks with IceBERT (2023)
- Hrafnhildur Hauksdóttir: Ávisun lyfjameðferða eftir mismunandi svipgerð hjartabilunar við útskrift á hjartadeild Landspítala (2023)
- Þór Sverrisson: Abstractive summarization for Icelandic (2023, published at Nodalida, now doing a PhD at the University of Iceland)
- Andrea Rakel Sigurðardóttir: Few-shot nematode detection using multi-spectral imaging (2022, now finishing a PhD at the University of Iceland)
- Kim Cosmo Ström: Drawing Music (2022)
- Vésteinn Snæbjarnarson: QA method for Icelandic (2021, led to PhD at University of Copenhagen and ETHZ)
